

The Project

The College is proud to announce the commencement of construction of the Foxford Innovation Centre. Inspired by our Bruton building, the Foxford Innovation Centre will feature arches and curves that reflect the heritage design of the mansion and integrate seamlessly with the College's existing buildings.

The Team

The Foxford Innovation Centre brings together the College's vision, with the design expertise of CHT Architects, the planning experience of Fontic and the building knowledge of Building Engineering.

Why Foxford?

The Foxford Innovation Centre has been named for the Foxford Woollen Mills in Ireland. The Mills were established in 1892 by a Sister of Charity, Mother Agnes Morrough-Bernard, in the village of Foxford. Mother Agnes arrived in Foxford to find a community in dire need. She decided to open a mill as a means of improving people's livelihood, and prospects for the area. It worked and the mill is still open today. It is Mother Agnes's spirit of innovation and tenacity, that inspired the name of our new building. A place where our students will follow in her footsteps, to design, create, collaborate and innovate.

The Projected Timeline

August 2023	Site Establishment & Demolition
September 2023	Earthworks
December 2023	Lower Ground Floor Slab Pour
February 2024	Ground Floor Slab Pour
March 2024	Level 1 Flor Slab Pour
May 2024	Completion of Structure
July 2024	Roof Installation
August 2024	Façade/Lock Up
November 2024	Internal Fitout & Landscaping
March 2025	Practical Completion/Handover

*Please note that the projected timeline is subject to change as construction progresses.
